Steven R. Fox
Manager, Engineering Services, Schiff Associates

■ **Schiff Associates** (Claremont, California), a corrosion consulting, engineering, coatings inspection, and soil-testing company, has announced that **STEVEN R. FOX** has been appointed manager of Engineering Services. A registered professional engineer based in the firm's San Diego office, Fox has more than 10 years of experience in the field of cathodic protection and corrosion control. He has a B.S. degree in aerospace engineering from San Diego State University and is a NACE-certified Cathodic Protection Specialist. In addition to the Claremont and San Diego locations, Schiff Associates has an office in the Las Vegas area.

Boyd C. Deiley
Area Sales Manager, New England, Enviroline Group

■ **Enviroline Group** (Pompano Beach, Florida) has added two people to its staff: **BOYD C. DEILEY** as area sales manager for the New England area and **LOURDES MATOS** as customer service specialist. Deiley has been involved in the coatings industry as an entrepreneur and corporate sales manager for more than 20 years. His primary role will be to develop sales to end users directly and through independent sales representatives and distributors. Matos will coordinate all orders, deliveries, and customer requests. She has more than 10 years of sales and customer service experience and is fluent in Spanish and English. Enviroline Group manufactures high-performance coatings and linings with high-temperature, chemical, and corrosion resistance through high solids and fast cure technology.

Lourdes Matos
Customer Service Specialist, Enviroline Group

■ **Vulcanium Metals, Inc.** (Northbrook, Illinois), a global distributor of titanium mill products, announces the opening of its West Coast sales office and the addition of **HERMAN "BUTCH" ANDREASSON** as the company's West Coast regional manager. Located in Long Beach, California, Andreasson will be responsible for West Coast sales of the company's medical, industrial, and aerospace products. He has 30 years of metal distribution experience, including general product knowledge and the forging industry.

Herman "Butch" Andreasson
West Coast Regional Manager, Vulcanium Metals

■ **MIKE REED** has been appointed president of **Network Technology Group (NTG), Inc.**, a subsidiary of **Elecsys Corp.** (Lenexa, Kansas). NTG designs, markets, and provides remote-monitor-

ing solutions for the gas and oil pipeline industry as well as other industries requiring remote-monitoring solutions. Reed has more than 20 years of experience in various engineering, marketing, and management roles at companies such as Ideal Aerosmith, Inc., Goodrich Aerospace, and Kustom Electronics.

HONORS AND AWARDS

■ **JOHN R. SCULLY**, professor of materials science and engineering and co-director of the Center for Electrochemical Science and Engineering at the University of Virginia (Charlottesville), has been honored with the **2005 Francis LaQue Memorial Award** by the **ASTM International** (West Conshohocken, Pennsylvania) Committee G01 on Corrosion of Metals. The committee cited Scully "for his numerous contributions in the development of standards to address corrosion issues; in recognition of his high level of integrity, fairness, technical, and leadership expertise; and for his outstanding achievements as an academician in the field of corrosion technology." Scully serves on the **CORROSION** Editorial Board, is a member of the NACE Research Committee and Awards Committee chair, and is a member of several government advisory boards.

John R. Scully
Recipient, ASTM LaQue Memorial Award

■ **RUSSELL H. JONES**, senior managing engineer at **Exponent Failure Analysis Associates** (Menlo Park, California), has been selected to receive **The Minerals, Metals & Materials Society's** (Warrendale, Pennsylvania) **2006 Structural Materials Division Distinguished Service Award**. The annual award recognizes an individual whose dedication and commitment to the Structural Materials Division has made a demonstrable difference to the objectives and capabilities of the division and the society. Jones was specifically recognized "for contributions in publications, organization of symposia, and for keeping the Corrosion and Environmental Effects Committee vibrant."

MERGERS AND ACQUISITIONS

■ **Lear Industries** (Houston, Texas) has joined the **EMS Group** (Houston, Texas) as a division focused entirely on pipeline integrity management. EMS Group is an energy operations and maintenance services company that provides energy services through its five service entities: Pipeline Integrity Management, Pipeline Management Services, Production & Pipeline Field Projects, Power Services, and the LNG Consortium. EMS Group's clients include major pipeline operators, local distribution companies, and independent power, oil, and gas producers.

■ **The Henkel Group** (Dusseldorf, Germany) has acquired a majority stake in **Huawei Electronics Co., Ltd.**, Lianyungang (Yiangsu, China). Huawei Electronics Co. is a manufacturer of epoxy molding compounds for semiconductors. Henkel is a provider of compatible material sets for semiconductor packaging, board-level assembly, and soldering solutions. **MP**
